

United Diagnostic Industry

High Speed With Reliable Results

Uditest - 500 C Urine Analyzer

13 Parameters Available On Strips

Right Solution For Urine Analysis

Uditest - 500C

Urine Analyzer

Technical Data

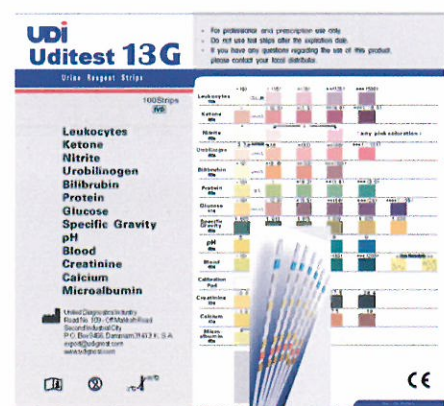

Parameters : Leukocytes, Ketone, Nitrate, Urobilinogen, Bilirubin, Protein, Glucose, Specific Gravity, pH, Blood Creatinine, Calcium, Microalbumin.

- Principle** : Dual-wavelength reflectance photometry
- Wavelength** : 550nm, 620nm, 720nm
- Throughput** : 500 samples / hour
- Memory Capacity** : 1000 results
- Strip** : Uditest 10G, 11G & 13G urine reagent strips
- Dimension** : 390mm X 340mm X 290mm

Features & Functions

- ✓ Internal calibration for sensitive of strips
- ✓ Checking for ready to test strips automatically
- ✓ High test speed up to 500 samples / hour
- ✓ Cold light source facility with long life and high stability
- ✓ External printer applicable & Rs232 port to computer
- ✓ Barcode reader optional
- ✓ Waste strip discarding automatically

UDITEST 10G, 11G & 13G
Urine Reagent Strip

Complete Urine Analysis with
Ascorbic Acid & Urine Control
